Real Mini Baked Sweet Potato

Simple without skin sweet potato innovation

Utilizing a patented cutting-edge facility, the outer skin of the sweet potato is completely removed and baked, reducing the inconvenience of peeling and increasing the sweetness of the inner skin's sticky texture.

It is an unprecedented simple nutritional snack and a good substitute for meals, as we have preserved the shape, taste, and nutrition of sweet potatoes, rather than cube/paste processing.

- 100% Korean sweet potato
- No additives, e.g. sugar, coloring, and synthetic flavoring agents!
- Customer: Home shopping and online sales.
